Effective engagement with stakeholders enables the Board to ensure stakeholder interests are considered when making decisions and is crucial for achieving the long-term success of the company. Long-term decision-making

The Board acknowledges the necessity of establishing a European office post-Brexit to maintain market access. Consequently, the Board decided to incorporate entities within the EU. In 2023, the group was granted two new trading licenses within the EU. As a result, the Board opted to restructure certain employees and business operations to capitalize on opportunities in the broader European market. This initiative is part of the Board's long-term strategy to expand its European operations.

In 2023, the group was granted an E-money license. This achievement has enabled the group to efficiently collect customer funds, thereby creating opportunities for strategic investments and generating additional interest income.

The Board is now focused on leveraging the advantages of the trading and E-money licenses to grow its market presence. Additionally, the Board aims to innovate and expand its FX derivative products which are offered to professional clients such as Dual Currency Investments, to enhance the group's market offering to FX hedging solutions.
